## EXPERIENCE

|                                                                                                                                                                                                                                                                                                                                                         |                       |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------|
| <b>OneBigBit</b><br><i>Summer Trainee – AI using MERN</i> <ul style="list-style-type: none"><li>Made a real-time chat app with React, Node.js, Express and MongoDB</li><li>Login system, one-to-one chats, instant message delivery and saved chat history</li></ul>                                                                                    | June 2025 – July 2025 |
| <b>Softflew Technologies &amp; Training Institute</b><br><i>MERN Stack Summer Intern</i> <ul style="list-style-type: none"><li>45-day summer training covering MongoDB, Express, React and Node.js</li><li>Made QuickShow, a full-stack movie ticket booking app</li><li>Worked on the REST APIs, MongoDB integration and responsive frontend</li></ul> | June 2025 – July 2025 |

## PROJECTS

|                                                                                                                                                                                                                                                                                                                                              |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>AI Virtual Assistant</b>   <i>MongoDB, Express.js, React, Node.js</i> <ul style="list-style-type: none"><li>Full-stack AI virtual assistant built with React, Node.js, Express and MongoDB</li><li>Uses an AI API to understand what the user asks and reply</li><li>REST APIs for user accounts and saved conversation history</li></ul> |
| <b>Library Management System</b>   <i>React, Node.js, Express.js</i> <ul style="list-style-type: none"><li>Library management system with a React frontend and Node/Express backend</li><li>Backend split into routes, controllers and middleware</li><li>REST APIs for the library operations</li></ul>                                     |

## TECHNICAL SKILLS

**Languages:** C, Python, JavaScript  
**Web Technologies:** HTML5, CSS3, React, Node.js, Express.js  
**Frameworks:** Bootstrap, Tailwind CSS  
**Databases:** MySQL, MongoDB  
**Developer Tools:** Git, GitHub

## CERTIFICATIONS

**AI using MERN Stack** – OneBigBit Technologies  
**45-Day Summer Training – MERN Stack** – Softflew Technologies & Training Institute

## LANGUAGES

English, Hindi, Urdu
